

SOFTWARE DEVELOPER

Deepak Singh Rawat

PROFILE

Seeking a challenging role in a reputable organisation to apply and expand my technical skills while contributing to the company's growth and staying updated on emerging trends.

EXPERIENCE

SOFTWARE DEVELOPER | APPINFOTECH LLP | 2022-PRESENT

Specialising in backend development and performance optimisation, I focus on writing robust code and optimising database structures to enhance overall system performance. My expertise lies in improving code efficiency to achieve optimal application performance and scalability.

REACT DEVELOPER | DIXINFOTECH SERVICES LLP | 2021-2022

Optimised component reusability and workflow efficiency, contributing to the advancement of best practices for scalable React applications.

FRONTEND DEVELOPER | KRISU TECHKUL PVT. LTD | 2020-2021

Implemented responsive designs across various devices, resulting in enhanced user engagement and accessibility.

EDUCATION

YouTube, Udemy – Software Development | 2018-Present

Arena Animation – Web Development, 2018-2020

Indira Gandhi Nation Open University – BSc, 2018-2022

Govt Boys School No. 4 – 12th (Science), 2016-2018

SKILLS

- NodeJs
- ExpressJs
- MySQL
- MongoDB
- ReactJs
- AngularJs
- JavaScript
- CSS
- HTML

PROJECTS

- Contributed to a project involving a high-volume money transaction system, ensuring robustness and security of financial transactions.
- Developed APIs for a mobile application catering to a substantial user base, focusing on performance, reliability, and scalability to accommodate increasing user demands.
- Due to the proprietary nature of the projects, specific details are confidential and subject to non-disclosure agreements.
